Two Creeks.

We want Correspondents at each of the above named places to send us in a budget of news each week, and to canvas in those sections for the ADVOCATE. A liberal percentage given. With some one kindly consent to act. Address

ADVOCATE, Elkhorn, Man.

The Rev. Mr. Urquhart spent Tuesday last in town.

Mr. and Mrs. A. B. Clifford are visiting friends at Woolsey.

Mr. Harvey Simpson, of Virton, was in town on Friday last.

Mrs. Murphy, of Port Burwell, Ont., is visiting friends in town.

Mr. Ted Sands is, we are sorry to state, laid up at the Grand Central Hotel, and is under the doctor's treatment.

Mrs. Fridde and children left last week for Oak Lake, and will remain on the farm near that city for a few weeks.

Mr. A. D. Matthews, of Minnesota, is in town negotiating for the erection of a grist mill here. We understand he intends building at once.

Mr. Stewart, partner in the firm of R. M. Coombs & Co., who has been looking after the business in the absence of Mr. Coombs in Chicago, has returned to Brandon.

Mr. A. E. Wilson spent a few days of last week up west visiting Indian Reserves. He returned on Sunday, bringing several Indian boys from the Touchwood Hills.

Our old friend, "Jummy" Rothney, is in town, busy shipping wheat from the Oulivier elevator in order to make room for the new crop which will soon begin to be marketed.

Mr. and Mrs. Coombs and Mr. Joseph Broadley returned from their trip to the White City on Sunday evening. They report the fair as being beyond their utmost expectations.

We understand that Mrs. Cavanagh, the wife of our popular host at the Cavanagh House, was very ill at the beginning of this week, but are pleased to announce that she is now fast recovering.

Rev. Mr. Kimberly, of Beulah, left Elkhorn on the local last Tuesday, for Brandon. Mr. Kimberly was unfortunate enough to sprain his leg, and has come to have it cared for at the Brandon Hospital.

Some horrid newspaper man has discovered the difference between a man and a woman washing their faces. He says all men rub up and down and snort. All women apply soap and stroke gently down ward.—Ex.

We were surprised to hear that R. M. Coombs & Co. intend disposing of their business at Elkhorn. They purpose having a great clearing sale shortly to tell out all the stock now on hand, and no doubt great bargains can be procured.

On Sunday September the 3rd, his lord ship the Bishop of Rupert's Land, will preach (D.V.) at the Church of the Advent, Kola, at 11 o'clock, a.m., hold confirmation service in St. Mark's Church, Elkhorn, at 3 o'clock in the afternoon, and preach in the same church in the evening at 7.30 o'clock.

An accident of a serious character occurred on Tuesday last to Mr. Kershaw. He and his daughter went out to pay a visit to Miss Nellie Kershaw, who is teaching school some miles south east of Elkhorn, when his horse took fright and bolted, the occupants were upset and the buggy badly smashed. Mr. Kershaw and his daughter, beyond a few bruises, escaped unhurt, but the vehicle is a total wreck.

On Saturday evening last, Mr. Robt. Fraser, having a desire to complete a task in the hay field, left the horse attached to the sulky rake, standing, until it became weary of the long hours, and began to proceed homeward, at first at a walk, but when commanded to halt it quickened its pace, and on being pursued it put on full steam. When near home a cow joined in the pursuit, and as the runaway entered the town all the dogs ran out to bid them welcome and to join in the chase. In this madly race the cow came in ahead. No halt was done beyond a bent axle, a broken shaft and a sprained wheel. The horse was brought to a halt in a fruitless effort to take up the lumber yard.

Lady McDonald's private car "Ermalige" passed through on the express last Monday.

Man is a harvester. He begins life at the cradle; learns to handle a fork; has rashly ways, grows wild, casts, thrashes his way through the world, and when he arrives at the acre and yellow leaf, Time mows him down and his remains are planted in the hillside.—Ex.

A new postage stamp of the value of 8 cents is now being put into circulation. The stamp will be available for the purchase of either of the 1-cent and 2-cent stamps, or of postage only.

An eastern editor says a man got himself into trouble by marrying two women. A western editor replies that a good many have done the same by marrying one. A southern editor says that a number of his acquaintances found trouble enough by barely promising to marry one and never going any further.

Mr. Samuel Hillis, one of the wealthiest farmers in Tyrer, Pembina county, N. D., was killed Thursday by a vicious bull. Mr. Hillis was leading the bull out of the stable when it rushed at him, throwing him into the air, and as he came down again the horn of the animal pierced his heart, then with a mighty swing the frenzied animal whirled him over its back, and he fell to the ground a corpse.

J. B. Dolan, of St. Catharines, Ont., says that there will be an enormous crop of tomatoes and corn in the Niagara district this year, and apparently the pack will be the largest on record, but he thinks that the canners will go cautiously about it, and that there will be no excess. He also says that peaches will be a heavy crop. They are now offering for September delivery at \$1.15 for 2's and \$2.15 for 3's. These figures are about 25c less than last year. Peas are a light pack.

A FARODY.

WITH APOLOGUES TO THE AUTHOR.
A hungry coon one day did spy
A nice sweet girl as she passed by.
And as she passed she seemed to say
To this coon who watched her by the way,
"If you can fetch me down, you may."

At last his patience nearly lost,
And with his expectations crossed,
He licked his lips then o'er and o'er
Till he found the girl beyond his power,
And then he said the grapes were sour.

His passion then was turned to hate
And recalled it through the Advocate,
And jumped upon the rival man
By exposing him—and—
And thought he struck a daisy plan.

And there he stands, with laudible eye
Alouding for the prize so high,
But though he stands for many an hour
And plans to reach the lady's tower
The grapes to him continue sour.

WHAT WE WOULD LIKE TO KNOW.

If "Sagas" was through a threshing machine.

If Arkell was the only party that interviewed the Minister of the Interior.

If that cottage of Jim's will hold forty thousand pounds.

Why our doctor is always rusticaling in the country when wanted.

If it is so that "Dug" intends exchanging his fiery steeds for a quieter team.

If Murphy is going to take his Jo Joa to the World's Fair.

If Cash intends putting another coat of paint on his summer pants.

If Vet Mr. intends changing his sleeping quarters, as that concert hall racket on the first flat is too much for his sensitive nerves.

If it was so that Tom Daly just woke up in time to see Hugh drill the Natives.

Why Shorty took such interest in that freight car tourist.

When our James intends starting that Chinese burying ground.

If Cash expects extra pay for working over time.

Did Buddy Flynn (pseudonym) give Bob the night mare.

Who stole that tourist's boots at the hay stack restaurant.

Why Murphy took that mean way of winding that quarter.

Is it so that "Dug" came near losing his temper as well as the horse and drive.

Did Van find "Dug's" temper as well as the harness.

If that man Hoy is as innocent as he looks.

If it was Tourists who took Jim's buggy wheel, horse and harness.

Why Van would not make a good confidence man.

If Van heard anything from the spirit world the other night.

If it is so, they blame poor Murphy for stealing that post hole.

What Grandpa was spreading himself about last Saturday.

If it is to get even that Murphy wants to sell that lampwick patent. We hear he has also the patent for wiring chairs.

When that box car ran up against Cash's house.

When Murphy is going back to Moosomin to hunt that mare and colt.

If Thompson in future will be a regular attendant at the Ladies' Aid tea.

If "Dug" has gone west to grow up with the country.

THEY DON'T KNOW WHAT'S WRONG.

Brampton, Aug. 21: A good many people in these days are evidently ignorant of what ails the horse. They use remedies for dropsy, rheumatism, sciatica or some such disease, and after a time find out that disordered kidneys caused all the trouble. Here are some instances. James Chap, a telegraph operator of this place, suffered from dropsy for a long time and could not find a remedy that would

relieve him until he found Dodd's kidney pills. They cured him, as the primary cause of his dyspepsia lay, undoubtedly, in his kidneys.

A well-known lady wrote to the Toronto press a short time ago stating that she had been cured of a womb disorder by means of Dodd's kidney pills. She did not think, until she was cured, that disordered kidneys were the seat of the trouble. Valentine Fisher, was cured of sciatica after 13 years by the same remedy. He found out at a late date that his kidneys had all along been the cause of his sufferings. These are only some of many like experiences that are daily met with.

LIPPENTOTT.

Harvesting is rushing us now, and the grain is in much need of cutting:

Mr. Bull, the Massey Harris expert, has been changing some of the Company's binders from reaping machines to self binders, a change which the farmer appreciates very much.

Mr. Stephen, of the Frost & Wood combination, has been applying the hammer and coal chisel to the Company's old stock in order to make them gather in a few more of the straggling sheaver.

The Rev. Mr. Fortune made some pastoral visits last week among his congregational friends.

Our local blacksmith has a small stock of coal on hand. Now, we don't know whether it is hard or soft. It may be Estevan's Cole. The wonder is what's got Archie. Did the lady who fell in the creek while picking berries get wet? Who shot that duck? On which side of the correction line is the church to be built?

Isn't it about time a post was put in the ground at Woodville school house for the minister to tie his horses to when he comes out to preach on Sundays.

BEULAH BITS.

August 17th.—Harvest is in full blast at last, and the crops around here are very fair with the exception of oats, which are not generally a good crop. From the present outlook they are likely to make as much money as the wheat.

Mr. C. L. Gurney, one of our early settlers, has arrived back from the east with his bride. We wish them much happiness.

The Beulah football team tried conclusions with the Valley club on Saturday evening last, when greatly to the surprise of every one, they returned victors by two goals to nothing. As they have never suffered defeat yet they must be hard to beat.

Mr. James Irwin, of Rossburn, was around this week. He intends bringing in his steam thrasher as soon as there is anything doing in that line. Irwin is a rustler and will be sure to do his work well.

Mr. and Mrs. Cornforth, of Aurora, Ont., have been visiting with Mrs. Marsh of Beulah, lately.

A branch of the Canadian Order of Foresters has been formed at Beulah. We understand a great number have either joined or are thinking of it.

Whiskers says that the item concerning Daddy in last week's paper, is untrue. We believe Whiskers is right, and beg to assure Daddy that his fears are groundless.
